# MODUS™ Cycle Locker

*A secure, environmentally friendly cycle locker with a space-saving design which can be arranged in various configurations to suit your site layout.*

- **Vandal, impact and weather resistant**
- **Anti-theft design**
- **Robust, low maintenance unit**
- **Multiple lockers can be arranged in different layouts**
- **Minimum two units required in a bank**

**Environmentally Friendly**   
**Ecoboard™# Panelling 100% Recycled Post Consumer Waste.**  
Inner core manufactured from recycled plastic carrier bags. Outer core manufactured from recycled wheeled bins.  
**100% Recycled Durapol®\*\* Material Roof.**

Door Number Plaque supplied with each unit – please confirm number preference at point of order.

Steel door with Armortec®\* coating and 10mm stainless steel hinge rod.

Highly secure T-Handle lock.

Secures one bicycle per locker. Minimum two units required in a bank.

Security strip minimises the risk of unauthorised entry.

**Supplied fully assembled**

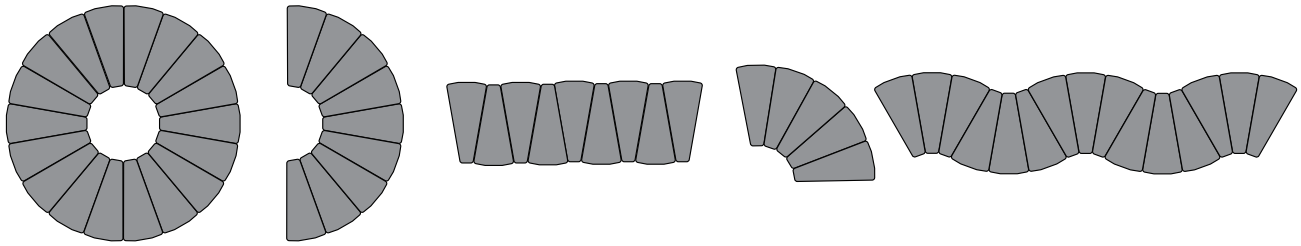

An internal wheel track allows the bicycle to be easily guided into the unit.

Additional locking points on the wheel track provide extra security.

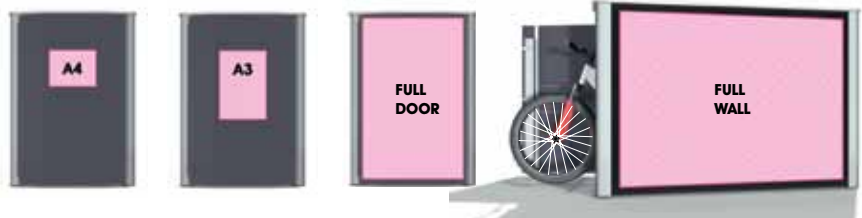

## Siting Options

Modus Cycle Locker can be sited in a variety of formations to maximise space and suit your requirements. Here are some examples:

## Personalisation Options

Your own logo or artwork can be used to personalise Modus Cycle Locker. Vinyl graphics can be applied to the door or wall panels.

Expanding anchor bolts for installation into a prepared, level concrete foundation.  
 A minimum of 2 lockers must be installed together to ensure stable placement.

\*Armortec<sup>®</sup> corrosion resistant coating is specially formulated to extend the life of Glasdon metal products and components used externally.

\*\*Durapol<sup>®</sup> material is a polymer formulated to withstand extremes of temperature and is impact-tested in our Quality Assurance Laboratory as part of our BS EN ISO 9001:2008 test procedure. Durapol material will not chip or rust, is easy to clean and never needs painting.

†Ecoboard<sup>™</sup> panelling is manufactured using 100% post consumer waste (mixed plastics).

‡Vandalex<sup>®</sup> material is an aluminium alloy engineered to produce a high modulus of elasticity, which offers increased impact absorption properties. Its anodised finish will not rust, is easy to clean and never needs painting.
